Are you trying to figure out how to set up the church AV equipment?

Have you been stumped on how to create a church website or implement today's technology with your church?

The **Church Technology Team** supports WRBA churches with the development of appropriate technology that assists the church with all of its ministries, such as:

- Evangelism
- Discipleship
- Outreach
- Community Ministries
- Internal Communications

Some examples of the technology that this team might help with are:

- Apps and Church Use of Smart Phones
- Communicating with Prospects/Visitors/Members
- Websites
- Social Media
- CRM Databases

This team could assemble helpful lists of:

- Graphic Designers
- AV Technicians
- Website Designers
- IT Support Technicians

to make the churches more culturally relevant and accessible to the community.
