TRIP PLANNING

PRE-TRIP

One of the biggest components is being in good communication with your fellow leaders and team members throughout the pre-planning process in order to ensure that everyone is on the same page when you arrive on location.

DURING TRIP

While many of the logistics should have been planned out during the Vision Trip/Site Visit, the team leader is responsible for making sure that everything runs smoothly, while being flexible and adaptable to changing circumstances while in country.

POST TRIP FOLLOW-UP

Everyone on the team will have had a unique experience, and it takes time to process everything, especially if in an extreme cross-cultural setting. By allowing adequate time for follow-up and processing, team members are able to reflect on their experience, and hopefully be able to tell their story in a way that accurately reflects their transformational missions experience.

“We must be global Christians with a global vision because our God is a global God.”

~ John R.W. Stott
